

Invitation ILS: Collaboration Across Borders 20th of January, 2026

[The Leiden Leadership Centre \(LLC\)](#) at Leiden University is a platform for research and education in the field of public leadership. Our mission is to advance knowledge and contribute to the development of public leadership; both in academia and in practice. We believe that leadership is a shared process, and therefore we cannot do this work alone.

To strengthen a university-wide network of researchers interested in leadership, we launched the Interdisciplinary Leadership Symposium: a moment to exchange perspectives, spark discussion, and explore the trans- and interdisciplinary nature of leadership with colleagues within our university.

We are pleased to invite you to the second edition of our Interdisciplinary Leadership Symposium: **Collaboration Across Borders**. We warmly welcome you to join the conversation and engage with us during this event. You can register for the event [here](#).

This year, we again explore the multi-layered nature of leadership through new workshop rounds focusing on leadership in **research**, **education**, and **development**. Curious about what's planned? Discover the full programme [here](#).

Feel free to share this invitation with your network! Our goal is to bring together as many scholars and colleagues from across Leiden University as possible who are interested in leadership and eager to help strengthen our growing community.

If you have any questions about this event or LLC in general, please do not hesitate to contact us at llc@fgga.leidenuniv.nl

We hope to see you on the 20th of January!
