

2026

W.J. (Willemijn) van den Hout, [Time to tip the scales: tackling overweight and obesity in primary care](#)

2025

J. (Jihee) Han, [Understanding hypercoagulability. Determinants and impact on cardiometabolic disease](#)

2023

D. (Dorina) Ibi, [Genetics and life course epidemiology of cardiometabolic disease: towards personalized medicine](#)

T.O. (Tariq) Faquih, [Multi-omics in research: epidemiology, methodology, and advanced data analysis](#)

L.G. (Leon) Martens, [Oxidants and antioxidants as targets for cardiovascular disease prevention: evidence from observational and causal inference studies](#)

T. (Tahani) Alshehri, [Disentangling the relationship between depression, obesity and cardiometabolic disease](#)

2022

F.S. (Fathimah) Sigit, [Obesity and metabolic syndrome: from clinical to public health perspectives: results from population-based studies of the Dutch and Indonesian populations](#)

I. (Inge) Verkouter, [Adult weight change and cardiometabolic disease: studies into underlying pathways](#)

J. (Jiao) Luo, [Oxidative stress in chronic disease: causal inference from observational studies](#)

M. (Marieke) Loef, [Insight in the role of lipids and other systemic factors in hand and knee osteoarthritis: lessons from clinical studies](#)

2020

E. (Esther) van Eekelen, [Abating abdominal adiposity: Modifiable lifestyle risk factors for visceral and liver fat deposition](#)

R. (Ruifang) Li, [Omics profiling of cardiometabolic diseases](#)

I.A. (Ilona) Dekkers, [Quantitative MRI in obesity & reno-cardiovascular function](#)

M.M. (Maxime) Bos, [Genetic and environmental determinants of cardiometabolic health](#)

T. (Tim) Christen, [Novel insights into blood markers and cardiovascular disease: Results of the Netherlands Epidemiology of Obesity study](#)

F.P.B. (Féline) Kroon, [Inflammation as a target for treatment in hand osteoarthritis](#)

2019

T.W. (Dorine) Elffers, [Obesity and Cardiovascular disease](#)

S.L. (Sarah) Gardiner, [Huntington Disease and other Polyglutamine Diseases: Using CAG repeat variations to explain missing heritability](#)

2018

L.L. (Lisanne) Blauw, [Genetic determinants of cholesterol and energy metabolism](#)

A.W. (Anne) de Boer, [Improving cardiovascular risk assessment in primary care](#)

W. (Willemien) Thijs, [Obesity related risk factors for impaired lung function](#)

2017

R.L. (Ralph) Widya, [Obesity and type 2 diabetes : cardiovascular and cerebral aspects](#)

2016

K.B. (Karin) Gast, [Insulin resistance and atherosclerosis: the role of visceral fat](#)

A.W. (Willemien) Visser, [Risk factors and outcome measures in hand and knee osteoarthritis](#)

2015

S. (Stefanie) Hillebrand, [The role of the autonomic nervous system in diabetes and cardiovascular disease](#)
