

Annex: finished ERC Consolidator Grant projects at LUMC

ERC Consolidator Grant 2016

Oogenesis spotlighted: making mature human oocytes (OVO-GROWTH)

Susana Chuva de Sousa Lopes

Dept. of Anatomy and Embryology, LUMC

ERC Consolidator Grant 2016 - panel LS7

EC contribution: EUR 2,000,000

Start date: 01 July 2017 - End date: 28 February 2023

Read more: [OVO-GROWTH project at EC Cordis website](#)

ERC Consolidator Grant 2016

The role of complement in the induction of autoimmunity against post-translationally modified proteins (AUTOCOMPLEMENT)

Leendert Trouw

Depts. of Rheumatology and Immunology, LUMC

ERC Consolidator Grant 2016 - panel LS7

EC contribution: EUR 1,999,802

Start date: 01 September 2017 - End date: 31 August 2023

Read more: [AUTOCOMPLEMENT project at EC Cordis website](#)

ERC Consolidator Grant 2013

CHROMATIN-REPAIR-CODE: Hacking the chromatin code for DNA repair (CHROMATINREPAIRCODE)

Haico van Attikum

Dept. of Human Genetics, LUMC

ERC Consolidator Grant 2013 - panel LS2

EC contribution: EUR 1,999,575

Start date: 01 March 2014 - End date: 28 February 2019
